Subject: Key Features of Rubicon's gate products - SBx7-7 ASC Measurements Subcommittee (A2) 3/8

Key Features of Rubicon's gate products:

High volume manufacturing capacity - unrivaled internationally

Rubicon's CableDrive™ drive-train. Precision drive and actuation system designed specifically for high duty cycle of automated control and the harsh environment of the water industry - accuracy to better than $\pm 0.5\text{mm}$.

Rubicon's FormiPanel™ high strength and precision tolerance sandwich panel construction technology.

Integrated upstream and downstream water level sensors (Rubicon's MicronLevel™ ultrasonic water level sensor technology - accuracy to better than $\pm 0.5\text{mm}$)

Rubicon's SolarDrive™ technology - state-of-the-art solar power management and control circuitry.

Easy to install and maintain - modular components, readily available.

Local and remote interfaces - SCADA ready
